

Reduce your...

cost, energy use & climate impact

Every home needs hot water

No maintenance • High quality components
Long warranties • Immediate savings

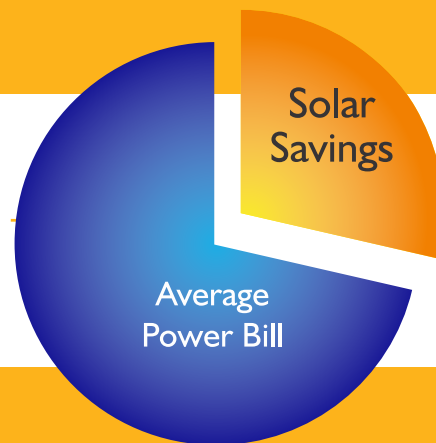

Up to 46% of the average home's energy bills are just for heating water.

Cut your power bills by at least a third with Apricus solar hot water

"With our Apricus system, our hot water only costs \$4.50 a month"

Gray Pearson, Ohope

"We have halved our summer power bills from the old house to our new home, even with more features in the home, a bigger house and swimming pool."

Debbie, Thornton
